

Flight Review FAR Syllabus

I consider these regulations to be the most important for pilots to have a working understanding. Obviously, there are many more FAR's in the book. The omission of any FAR from this list doesn't mean you don't need to be familiar with it... Please study and review the FAR's on this list before the ground portion of our flight review.

* asterisk indicates we will definitely talk about this regulation

- *61.15 Alcohol and drug offenses
- *61.23 Duration of medical certificates
- 61.31 (all except b) General limitations
